

Compellent Storage Arrays

Post Warranty Support

Sherlock Services is pleased to announce the offering of Post Warranty Support for Dell Compellent storage arrays. The same hardware break/fix and software phone assistance as you've come to expect from other products we support. Sherlock Services offers a wide range of support contracts to fit your needs and budget.

Sherlock Services

Over 25 years of experience and dedication supporting multi-vendor environments

Sherlock Services is one of the premier post warranty providers of hardware and software support for HP, 3PAR, Hitachi, Compellent, LSI, IBM, Dell, Sun, EMC and various other products. The Sherlock Services Mission is to maintain our customer's infrastructure so that they can operate 24x7x365 without interruption to their business.

Sherlock Services offers support contracts that vary from 5 day - 8am-5pm next day response to 24x7 - 4 hour response depending on your needs. With local parts and technicians, we are able to solve hardware failures quickly and cost effectively. With our Proactive Health Check Assessment, we discover potential problems in advance to avoid possible future downtime. Our support technicians are fully certified and are capable of performing assessments, installation, maintenance, and administration of all systems, storage, printers and peripherals.

We provide support for the following hardware models:

Legacy Compellent

- CT-SC20
- CT-SC30
- CT-SC40

New Dell Compellent

- Dell SC40
- Dell SC8000
- Dell SC200
- Dell SC220
- Dell SC280

Your Dell Compellent storage array will be monitored 24x7x365 via the built-in monitoring tool. Once triggered, it opens a service ticket and sends error reports to knowledgeable personnel who can then troubleshoot and resolve the issue proactively before it becomes a problem or an interruption to your business.
