

HP3000 Legacy Server

Post Warranty Support

Sherlock Services offers Post Warranty Support for hardware break/fix and software phone assistance. The HP3000 may no longer be a supported product by HP but it is still serving thousands of users with quality performance. We understand the legacy issues with MPE and can work with you to provide ongoing support until YOU declare the system is obsolete.

Sherlock Services

Over 25 years of experience and dedication supporting multi-vendor environments

Sherlock Services is one of the premier post warranty providers of hardware and software support for HP, 3PAR, Hitachi, Compellent, IBM, LSI, Dell, Sun, EMC and various other products. The Sherlock Services Mission is to maintain our customer's infrastructure so that they can operate 24x7x365 without interruption to their business.

Sherlock Services offers support contracts that vary from 5 day - 8am-5pm next day response to 24x7 - 4 hour response depending on your needs. With local parts and technicians, we are able to solve hardware failures quickly and cost effectively. With our Proactive Health Check Assessment, we discover potential problems in advance to avoid possible future downtime. Our support technicians are fully certified and are capable of performing assessments, installation, maintenance, and administration of all systems, storage, printers and peripherals.

We provide support for the following models:

HP 3000 Servers PA-RISC 1.0

- 925, 930, 939, 949
- 950, 955, 960, 980
